

KiddoCode

Our app teaches kids programming in a fun way through games, stories, and interactive challenges. It turns learning to code into an exciting adventure that builds logic, creativity, and problem-solving skills.

-Project Idea

The project aims to simplify coding concepts for kids by transforming complex programming logic into engaging, age-appropriate activities, while providing a safe and motivating learning environment for both children and parents.

Team name:

PIXI

Team members:

- Mariam Ashraf Mohamed
- Toka khaled sakr
- Rahma Ehab Fayek
- Fatma elmorsy elgedawy
- Ghram Arafa Mosaad Saad
- Hager Sami Abd Elsattar

Work Plan

UX Design

- Market Research
- 5Ws Key

- Attributes
- Business Model
- Interviews
- Survey
- Affinity map
- Insights
- Persona
- Empathy map
- Problem Statement
- Solution
- User Journey Map
- Card Sorting
- Sitemap
- User Flow
